THE SUNRISE COLLECTION

Issue No. 2

Handwoven sustainable fibers

Add individually handwoven to size CONRAD shades to your home. Nature provides the fibers and each season's harvest of fibers is unique in texture, color, and natural striation.

Through innovative weave designs and the artistry of handweaving, these fibers are transformed into one-of-a-kind window coverings.

SUNRISE DRAPERIES

Project Spotlight

Project Details

In all three homes, shades were custom made in our Forest Lake workroom.

In the top photo, we added lining, interlining, and ribs to give the shades body and keep the folds uniform.

In the center photo, we only used lining to allow more natural light to come through these shades in this airy living room.

In the bottom photo, we layered a faux shade with banding on top of an operable shade with blackout lining to darken the room for a great night's sleep.

Design Tip

Cleaning Drapery and Shades

- It's easy to keep drapery and shades looking as good as they did the day they were installed – simply use the brush attachment on your vacuum to remove the dust during your Spring and Fall cleaning routines.
- On occasion, more might be needed. Most drapery fabrics can be brought to the dry cleaner or call a cleaner to steam clean without ever taking them down!
